DOEL

- Je oefent de strategie: $1 \times$ meer en $1 \times$ minder bij de tafels.

1

1 $\times$ meer, 1 $\times$ minder.

$$2 \times 6 = 12 \rightarrow 3 \times 6 = 18 \quad 12 + 6$$

$$5 \times 4 = 20 \rightarrow 6 \times 4 = 24 \quad 20 + 4$$

$$10 \times 6 = 60 \rightarrow 9 \times 6 = 54 \quad 60 - 6$$

$$5 \times 3 = 15 \rightarrow 4 \times 3 = 12 \quad 15 - 3$$

2

1 $\times$ minder, 1 $\times$ meer.

$$4 \times 2 = 8 \quad 10 - 2 \quad \leftarrow 1 \times \text{minder} \quad 5 \times 2 = 10 \quad 1 \times \text{meer} \rightarrow 6 \times 2 = 12 \quad 10 + 2$$

$$4 \times 4 = 16 \quad 20 - 4 \quad \leftarrow 1 \times \text{minder} \quad 5 \times 4 = 20 \quad 1 \times \text{meer} \rightarrow 6 \times 4 = 24 \quad 20 + 4$$

**3****1 × meer, hoeveel meer?**

$$2 \times 3 = 6 \quad \text{1} \times \text{meer} \rightarrow 3 \times 3 = \underline{9} \quad \underline{6} + \underline{3}$$

$$2 \times 5 = 10 \quad \text{1} \times \text{meer} \rightarrow 3 \times 5 = \underline{15} \quad \underline{10} + \underline{5}$$

$$2 \times 8 = 16 \quad \text{1} \times \text{meer} \rightarrow 3 \times 8 = \underline{24} \quad \underline{16} + \underline{8}$$

$$5 \times 5 = 25 \quad \text{1} \times \text{meer} \rightarrow 6 \times 5 = \underline{30} \quad \underline{25} + \underline{5}$$

$$5 \times 9 = 45 \quad \text{1} \times \text{meer} \rightarrow 6 \times 9 = \underline{54} \quad \underline{45} + \underline{9}$$

4**1 × minder, hoeveel minder?**

$$5 \times 4 = 20 \quad \text{1} \times \text{minder} \rightarrow 4 \times 4 = \underline{16} \quad \underline{20} - \underline{4}$$

$$5 \times 6 = 30 \quad \text{1} \times \text{minder} \rightarrow 4 \times 6 = \underline{24} \quad \underline{30} - \underline{6}$$

$$10 \times 3 = 30 \quad \text{1} \times \text{minder} \rightarrow 9 \times 3 = \underline{27} \quad \underline{30} - \underline{3}$$

$$10 \times 7 = 70 \quad \text{1} \times \text{minder} \rightarrow 9 \times 7 = \underline{63} \quad \underline{70} - \underline{7}$$

5**Maak sommen.** bijvoorbeeld:

$$2 \times \underline{4} = \underline{8} \rightarrow 3 \times \underline{4} = \underline{12}$$

$$5 \times \underline{7} = \underline{35} \rightarrow 6 \times \underline{7} = \underline{42}$$

$$2 \times \underline{6} = \underline{12} \rightarrow 3 \times \underline{6} = \underline{18}$$

$$2 \times \underline{8} = \underline{16} \rightarrow 3 \times \underline{8} = \underline{24}$$

$$5 \times \underline{9} = \underline{45} \rightarrow 6 \times \underline{9} = \underline{54}$$
